WE PROVIDE ON-SITE FACILITY SERVICES

Did you know that A&D Environmental provides a variety of production, warehouse and on-site services? While A&D is known for our industrial cleaning, remediation and waste management services, we also provide numerous other critical services to keep your facility running smoothly, such as Warehouse Management/Kitting, Machine Lubrication and Facility Maintenance Services. We know these things can take your attention away from your core business. A true service partner like A&D understands this and provides services that allow you to spend time on what matters most to you...your business. Our on-site personnel can help in many ways. That's why we're here.

On-Site Services

At A&D Environmental, we know time is money. A&D has the manpower and equipment to get the work done within your tight deadlines. We provide:

- **Warehouse Management/Kitting Services** — A&D can provide on-site Kitting Services, compiling individual items that are usually used together to perform a task or complete a project into a single “kit”. This helps speed up your manufacturing or maintenance time because the parts required for the job are already gathered together, so your workers don't have to assemble the tools and supplies themselves.
- **Machine Lubrication Services** — Routine equipment lubrication keeps your machinery running efficiently. That's why A&D offers on-site lubrication services. Routine lubrication keeps your machines running smoothly and carries away heat and contaminants, preventing surface-to-surface contact damage. This means fewer breakdowns and better quality output.
- **Facility Maintenance Services** — Do you need the grass cut? Don't have time to do painting or restore coatings? Does the office or facility need cleaning? A&D offers a variety of general maintenance services like buildings and grounds maintenance, cleaning, painting, general repairs, roads repair, pest control, and snow and ice removal, among other things.

Let us handle these things for you. Give A&D a call today.
